

ANNUAL MERCURY 100 SURVEY

BizWest is publishing a list of THE MERCURY 100 FASTEST-GROWING PRIVATE COMPANIES, and we want to include your company. To take advantage of this publicity, and be listed alongside competitors and colleagues, please fill in the information requested in the survey via the link below and submit by Jan. 31, 2018. Survey responses will be assigned to the Boulder Valley or Northern Colorado based on the county selected, and lists for both areas will be produced. Boulder Valley and Northern Colorado events will be held beginning in May 2018.

Criteria to be included:

- **Must be headquartered in the Boulder Valley or Northern Colorado (Boulder, Broomfield, Larimer or Weld counties).**
- **Must be a privately held company.**
- **Must include revenue for each of the past three years (Each year's revenues must include a full 12 months and will be published.)**

Please click the "Click here to Update" button below to complete our short survey. Or you can e-mail me directly at cwood@bizwest.com.

[Click here to update.](#)

Please answer all questions, as this potentially determines your ranking position. Blank or N/A in these fields will increase your chances of not being included in the list. If your company qualifies, a representative from the public accounting firm of Anton Collins Mitchell LLP may contact your financial executive or CPA to verify certain data submitted, and failure to verify may result in exclusion from the list.

Participation in this project is required for inclusion in our annual **Book of Lists**. Information provided will also be made available to the public in our popular **Data Store**, where area organizations and individuals search for deep data on local businesses. Though you may not consider your business to be one of the "largest," responding to this survey benefits all.

The deadline for this survey is Jan. 31, 2018.

We appreciate your attention to this and look forward to including you in this project. Thanks for your time and efforts.
